ABSTRACT

The employer satisfaction survey is conducted once every four years to collect data on employers' perceptions of recent graduates of the Wisconsin Technical College System (WTCS). The primary objective of the survey is for employers to rate how well graduates meet employers' expectations, compared with what the employers expect of an entry-level employee in three major areas: (1) technical work skills; (2) people skills; and (3) attitude. Approximately 3,000 employers were asked how satisfied they were with their employee's education, if they would recommend technical college graduates to another employer, and if they would hire a technical college graduate again. Graduates of the 16 technical colleges were asked to give their permission for the colleges to contact their employers to participate in the employer satisfaction survey. Only employers of those students who agreed to participate, and who employed graduates in occupations related to their field of study were surveyed. Key findings included: (1) 63% of employers stated that the employee meets their expectations for knowledge related to job; (2) 27% said the employee exceeded expectations; (3) 1% said the employee did not meet expectations; (4) 81% of employers surveyed said the employee met expectations in application of occupational knowledge; (5) 31% said the employee exceeded expectations; and (6) 1% said the employee did not meet expectations. Appended are several tables and the survey instrument. (NB)

OVERVIEW

Introduction

The Employer Satisfaction Survey is conducted once every four years to collect data on employers' perceptions of recent graduates of the Wisconsin Technical College System. Employers are in a unique position to assess the effectiveness of a technical college education in preparing people for employment. In turn, employers' responses can be used as a valuable tool for the evaluation of educational programs and services off ered by the Wisconsin Technical College System.

The primary objective of this survey is for employers to rate graduates' attributes on how well they meet the employers' expectations compared to what they expect of an entry-level employee in three major areas:

- 1. Technical Work Skills (occupational knowledge, application of occupational knowledge, use/operation of equipment, problem solving, read and writing, work quality, organizational, computer, and math skills);
- 2. People Skills (listening and speaking, interpersonal, and teamwork skills);
- 3. Attitude (customer focused, improves performance, good work ethic, and accepts advice).

Employers were also asked three general questions: how satisfied they are with the graduate's technical college education, if they would recommend technical college graduates to another employer, and if they would hire a technical college graduate again. Statewide detail by instructional area and type of degree granted is provided on these expectations and general questions in the tables that follow.

In addition, employers were asked how i mportant these traits would be to graduates they would hire in the future. It was found that the majority of employers believe each of the attributes listed will be very important or important in employees that they will hire in the future.

Methodology

The 16 technical colleges surveyed graduates of programs between October and December of 2001. On this survey, graduates were asked to give their permission for the technical colleges to contact their employers to participate in the employer satisfaction survey. Participants in this survey consisted only of employers of those graduates who gave permission for the technical college to contact their employer *and* who reported being employed in occupations related to their training. Responses were submitted to the Wisconsin Technical College System Board for compilation of this statewide report. A copy of the survey instrument is included as Appendix A.

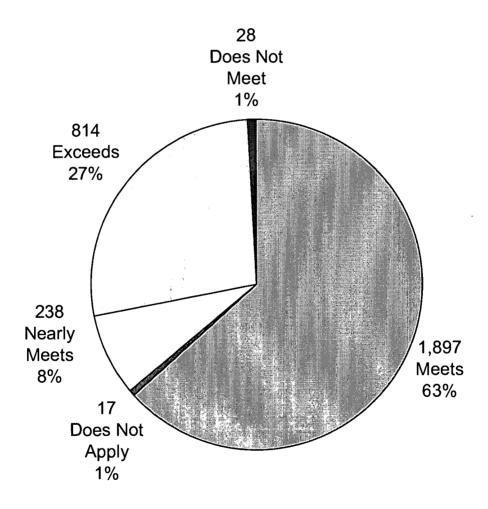

NOTE: Percentages in the following charts and tables may not add to 100 percent in all cases due to rounding.

1

OCCUPATIONAL KNOWLEDGE RELATED TO JOB

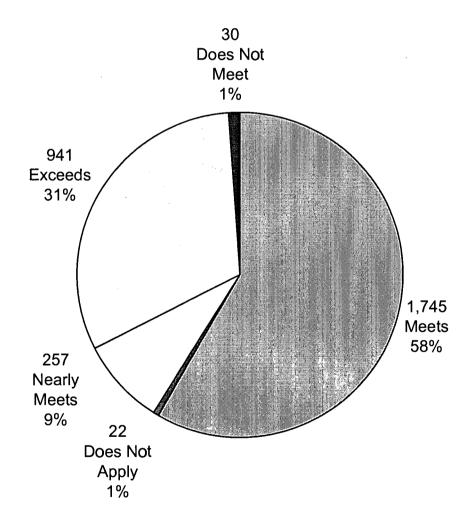

Employers were asked how well the graduate's occupational knowledge related to the job meets their entry-level employee expectations. As shown below, 814 employers (27 percent) rated graduates as exceeding their expectations; 1,897 (63 percent) said graduates met their expectations; and 238 (8 percent) stated they nearly met their expectations. Only 28 employers (1 percent) said the graduates did not meet their expectations, and 17 employers (1 percent) felt this question did not apply.

APPLICATION OF OCCUPATIONAL KNOWLEDGE

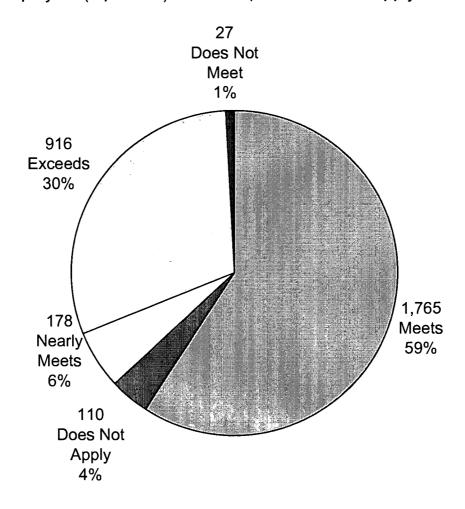

As indicated below, 941 employers (31 percent) rated graduates as exceeding their expectations of an entry-level employee on the application of their occupational knowledge related to the job; 1,745 (58 percent) said they met their expectations; 257 (9 percent) stated they nearly met their expectations; 30 (1 percent) said graduates did not meet their expectations, and 22 employers (1 percent) felt this question did not apply.

USE/OPERATION OF EQUIPMENT, TOOLS AND MATERIALS

Graduates were rated on their ability to use and operate equipment, tools and materials. 916 employers (30 percent) said graduates exceeded their expectations; 1,765 (59 percent) felt they met their expectations; 178 employers (6 percent) stated they nearly met their expectations; only 27 employers (1 percent) said graduates did not meet their expectations in this area, and 110 employers (4 percent) said this question did not apply.

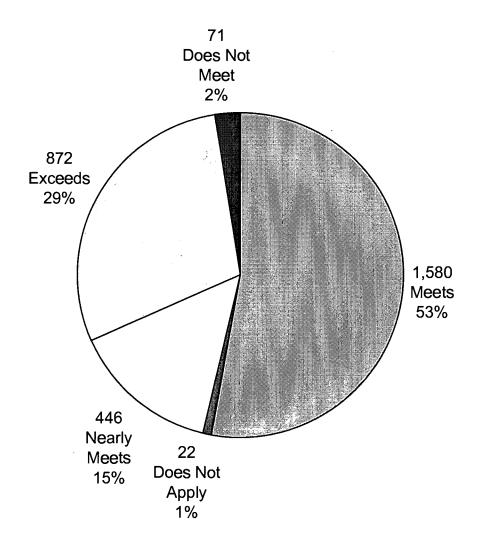

4

PROBLEM SOLVING SKILLS

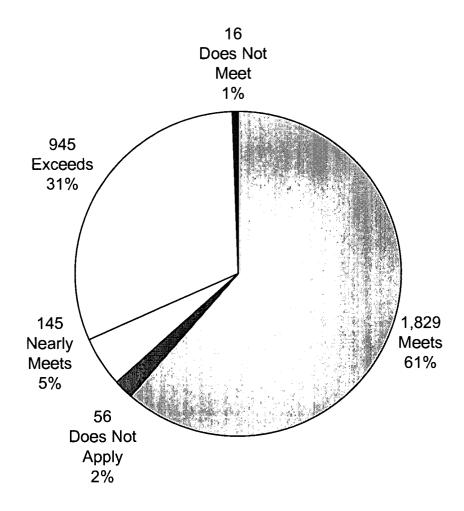

Employers rated graduates on their problem solving ability as entry-level employees: 872 employers (29 percent) said graduates exceeded their expectations; 1,580 (53 percent) said they met their expectations; 446 (15 percent) felt they nearly met expectations; 71 employers (2 percent) stated graduates did not meet their expectations, and 22 employers (1 percent) said this question did not apply.

READING AND WRITING SKILLS

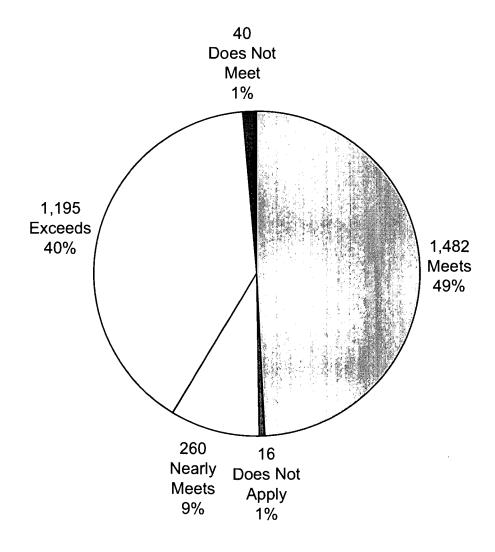

As indicated below, 945 employers (31 percent) rated graduates as exceeding their expectations in the area of reading and writing skills; 1,829 (61 percent) said they met their expectations; 145 (5 percent) stated they nearly met their expectations; 16 employers (1 percent) felt graduates did not meet their expectations and 56 employers (2 percent) felt this question did not apply.

COMPLETES WORK

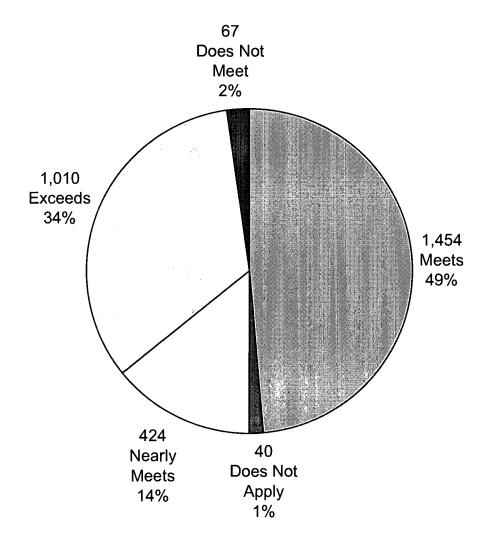

Employers were asked to rate the entry-level employee on his/her ability to complete work in accordance with quality standards; 1,195 employers (40 percent) stated graduates exceeded their expectations; 1,482 (49 percent) said they met expectations; 260 (9 percent) felt they nearly met expectations; 40 employers (1 percent) said graduates did not meet their expectations, while 16 employers (1 percent) felt this question did not apply.

ORGANIZATIONAL SKILLS

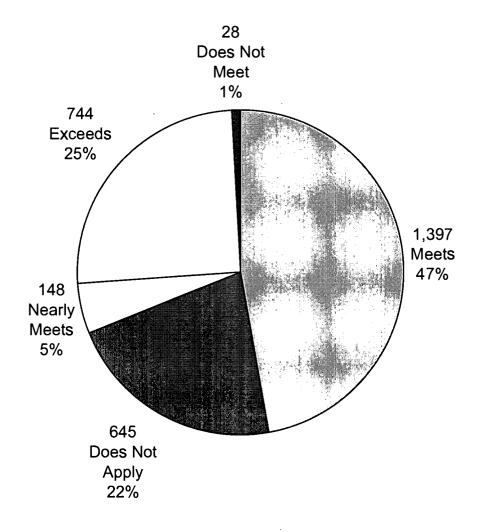

Graduates were rated on their organizational skills, such as prioritizing, planning, and goal setting: 1,010 employers (34 percent) said graduates exceeded their expectations; 1,454 (49 percent) felt they met expectations; 424 (14 percent) said they nearly met their expectations; 67 (2 percent) said they did not meet their expectations, and 40 employers (1 percent) felt this question did not apply.

COMPUTER SKILLS

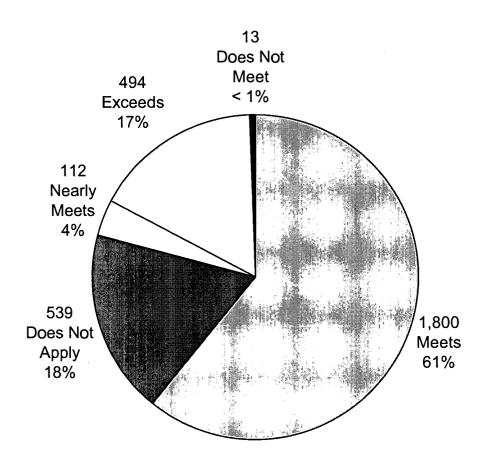

As shown below, 744 employers (25 percent) stated that graduates exceeded their expectations in the area of computer skills; 1,397 (47 percent) said they met their expectations; 148 (5 percent) felt they nearly met expectations; 28 (1 percent) said they did not meet their expectations in this area, and 645 employers (22 percent) felt this question did not apply.

MATH SKILLS

Employers rated graduates on their math skills on the job and 494 (17 percent) felt technical college graduates exceeded the expectations they have of entry-level employees; 1,800 (61 percent) thought they met their expectations; 112 (4 percent) said they nearly met expectations; only 13 (< 1 percent) said they did not meet their expectations, and 539 employers (18 percent) felt this question did not apply.

Employer Survey

INSTRUCTIONS

Below is a list of attributes. If an attribute does not apply to this employee's position, circle Q -- Does Not Apply. For each attribute, rate the graduate as follows:

- 1. For the first column, EXPECTATIONS: How well does the graduate meet your expectations, compared to what you expect of an entry-level employee? Circle one number.
- 2. For the second column, FUTURE IMPORTANCE: How important is each attribute for entry-level employees you will hire in the future? Circle one number.
